News Release July 24, 2006

Summary of Consolidated Business Results for the First Quarter Ended June 30, 2006

Tokyo, July 24, 2006 — Kao Corporation today announced its consolidated business results for the three months ended June 30, 2006, the first quarter of the year ending March 31, 2007. The following summary of the business results that Kao submitted to the Tokyo Stock Exchange is unaudited and for reference only.

Ticker code: 4452

Consolidated Financial Highlights (Unaudited)

(Millions of yen, millions of U.S. dollars, except per share data)

	Fii	0	Fiscal 2005, ended

Cash and cash equivalents at end of period	63,397	69,871		550.1	67,527

Notes:

- 1. Net income per share is computed based on the weighted average number of shares outstanding during the corresponding periods.
- 2. U.S. dollar amounts represent translations using the approximate exchange rate on June 30, 2006, of yen 115.24=US\$1, and are presented solely for the convenience of readers.
- 3. Yen amounts are rounded down to the nearest million.
- 4. Simplified accounting treatment is adopted partially with respect to the standards for the accounting of liability for employee retirement benefits.
- 5. Change in scope of consolidation: Consolidated subsidiaries (addition) 1
- 6. Net assets for the first quarter ended June 30, 2005 and the year ended March 31, 2006 do not include minority interests. In addition, net worth is the same as shareholders' equity for the first quarter ended June 30, 2005 and the year ended March 31, 2006, while net worth for the first quarter ended June 30, 2006 consists of shareholders' equity and adjustments for valuation, foreign currency translation and others.

News Release July 24, 2006

Forecast of Consolidated Results for the Six Months Ending September 30, 2006 and the Year Ending March 31, 2007

(Millions of yen, millions of U.S. dollars, except per share data)

	Six montl September	•	Year ending March 31, 2007		
	Yen	U.S. dollars	Yen	U.S. dollars	
Net sales	¥600,000	\$5,206.5	¥1,210,000	\$10,499.8

News Release July 24, 2006

Business Results

Summary of Business Results and Financial Condition for the First Quarter Ended June 30, 2006 (Consolidated)

Consolidated net sales for the three months ended June 30, 2006, the first quarter of the year ending March 31, 2007, increased 21.7 percent, or 50.6 billion yen, from the same quarter a year earlier to 283.8 billion yen (a 19.3 percent increase excluding the effect of currency translation). Although the Japanese economy continued to recover at a steady pace, the domestic market for consumer products, the Kao Group's core business area, was weak. Under these conditions, aiming to achieve profitable growth driven by high-value-added products, the Kao Group worked to accelerate growth in the business areas of beauty care and health care*, to further strengthen and develop its core fabric and home care business, and to further enhance the chemical products business globally and locally with distinctive products that meet customer needs. In addition, sales of Kanebo Cosmetics were also consolidated. With regard to income, the Kao Group focused on launches of new products with high added value, sales expansion of existing products and greater efficiency in expenditures, but retail prices declined and raw material prices rose. Moreover, the expenses for the amortization of intellectual property rights and goodwill related to Kanebo Cosmetics were added. As a result, operating income decreased 2.6 billion yen compared with the same quarter a year earlier to 24.1 billion yen, and ordinary income decreased 3.1 billion yen to 24.5 billion yen. Net income for the first quarter decreased 2.2 billion yen to 12.8 billion yen. Operating income before amortization of intellectual property rights and goodwill related to Kanebo Cosmetics was 30.0 billion yen.

*The scope of "health care" does not include pharmaceuticals.

Summary of Results by Business Segment

Consumer Products Business

Net sales of consumer products increased 5.6 percent from the same quarter a year earlier to 176.7 billion yen. Sales in Japan increased 2.0 billion yen mainly due to new product launches. Overseas sales increased due to aggressive business development. However, income decreased compared with the same quarter a year earlier due to the effects of declining retail prices and rising raw material prices.

1. Japan

Sales in Japan increased 1.6 percent from the same quarter a year earlier to 131.2 billion yen. The economy showed upward momentum, with a moderate increase in personal consumption and a shift toward an upward trend in consumer prices. On the other hand, prices continued to decline in the consumer products market, although a change began to become evident as retail prices shifted to an increase in some product categories. Under these conditions, the Kao Group worked to establish products with high added value, as business and sales divisions continued to work in close cooperation to promote

News Release July 24, 2006

aggressive marketing activities at each chain store and in each region.

Personal Care: *Bioré U* body cleansers sold well, basing their appeal on a new scent and quality after washing, and sales of *Bioré* facial cleansers and makeup removers increased, as *Bioré Marshmallow Whip* facial foam and *Bioré Cleansing Cotton Smooth Oil In* makeup remover gained consumer support. In addition, *Bub Cool* bath additives performed strongly with the launch of a product containing an assortment of four scents. However, shampoos and conditioners were impacted by intensifying competition. In addition, sales of antiperspirants and other seasonal products were weak due to the unseasonable weather. As a result, sales decreased 0.6 percent from the same quarter a year earlier to 45.7 billion yen.

Fabric and Home Care: Sales increased 2.7 percent from the same quarter a year earlier to 56.2 billion yen. Retail prices of existing products continued to trend downward, albeit gradually, but the Kao Group energized its brands with the launch of laundry detergents *New Beads with Fabric Softener* and *Attack ALL in.* In the fabric softener category, Kao launched *Humming Flair Relaxing Herbal Scented*, which adds deodorizing and odor-preventing functions.

Feminine Care, Baby Care and Others: Sales increased 2.9 percent from the same quarter a year earlier to 29.2 billion yen. In the feminine and baby care category, disposable baby diapers performed well, earning consumer support following a renewal in the previous year. In addition, sales of feminine care products grew as the Kao Group enhanced the product lineup of *Laurier F*, which takes alleviating skin stress as its key concept. In the health care category, healthy cooking oils were impacted by intensifying competition. Although sales of *Healthya Green Tea* decreased, total sales of the *Healthya* brand exceeded those of the previous year with the launch of *Healthya Water* sports drink.

2. Overseas

In Asia, sales increased 15.2 percent from the same quarter a year earlier to 15.1 billion yen (a 4.5 percent increase excluding the effect of currency translation). Intense competition continues as the market grows, but the Kao Group worked to raise its competitiveness by unifying its management in Asia. The Kao Group further strengthened the linkage between marketing and sales activities in Japan and locally to sell the *Asience* premium hair care brand in Taiwan and Hong Kong and to launch *Laurier F* in Hong Kong and Singapore. These products gained consumer support and expanded their sales territories.

In North America and Europe, sales increased 20.7 percent from the same quarter a year earlier to 32.1 billion yen (an 11.7 percent increase excluding the effect of currency translation). The skin care product *Jergens natural glow* performed well, as the line extension of a product for the face in addition to the existing product for the body increased sales. The *KMS* premium professional salon brand sold well following a major renewal.

News Release July 24, 2006

Prestige Cosmetics Business

With the addition of Kanebo Cosmetics, the Kao Group worked to create strong, distinctive brands. Kanebo Cosmetics performed strongly, with the launches of the premium prestige brands *Impress* and *Blanchir Whitening Conclusion* whitening serum and the *Lavshuca* makeup series. Kao Sofina launched the new skin care brand *HADA KA*, but the UV care products were impacted by the unseasonable weather. U.K.-based Molton Brown increased sales by adding new products and expanding its sales territory. As a result of the above and the consolidation of Molton Brown and Kanebo Cosmetics, neither of which were in the Kao Group in the same quarter of the previous year, prestige cosmetics business sales approximately tripled compared with the same quarter a year earlier to 59.5 billion yen. The first quarter of Kanebo Cosmetics, which has a fiscal year ending December 31, is from January through March. Therefore, the consolidated financial statements include the results of Kanebo Cosmetics for the two months starting in February, when the company was added to the Kao Group. Income was basically in line with the Kao Group's forecast.

Chemical Products Business

The chemical products business worked to enhance global development, and sales increased 5.4 percent from the same quarter a year earlier to 54.7 billion yen. Income was firm.

1. Japan

Although a moderate economic recovery is continuing, the direction of prices of petroleum-based products and other raw materials is difficult to predict. In this environment, sales of the oleo chemicals business were firm. In the performance chemicals business, sales were weak, due in part to inventory adjustments by some customers. In the specialty chemicals business, sales of toner and toner binder products and pigment auxiliary for color inkjet printer ink decreased compared with the same quarter a year earlier due to intensifying competition in their target markets. On the other hand, intersegment sales to the consumer products business increased. As a result, sales increased 2.3 percent from the same quarter a year earlier to 28.8 billion yen.

2. Overseas

In Asia, sales of surfactants were solid, but sales of fatty alcohols were weak due to softening market conditions. As a result, sales in Asia rose 7.8 percent from the same quarter a year earlier to 13.6 billion yen, but decreased by 4.2 percent excluding the effect of currency translation. In North America and Europe, tertiary amines and high-performance concrete additives performed steadily, and sales increased 12.6 percent from the same quarter a year earlier to 20.3 billion yen (a 6.3 percent increase excluding the effect of currency translation).

Financial Condition

As of June 30, 2006, total assets were 1,220.0 billion yen, almost the same level as the end of the previous fiscal year. Accounts receivable increased due to business expansion, while loans decreased.

News Release July 24, 2006

Total liabilities decreased 1.2 billion yen compared with the end of the previous fiscal year, to 700.7 billion yen. Factors in the change were an increase in accrued expenses due to business expansion and a decrease in accrued income taxes as a result of their payment. Total net assets including minority interests were 519.3 billion yen, an increase of 0.7 billion yen from March 31, 2006. Net income for the first quarter totaling 12.8 billion yen was the main factor contributing to the increase in total net assets, while the main factor reducing total net assets was payments of cash dividends. As a result of the above factors, the net worth ratio was 41.8 percent, unchanged from the end of the previous fiscal year.

Net cash provided by operating activities was 18.6 billion yen. Although income before income taxes and minority interests was 24.2 billion yen and depreciation and amortization totaled 20.6 billion yen, income taxes paid totaled 16.6 billion yen and increases in trade receivables and inventories totaled 13.5 billion yen. Net cash used in investing activities was 13.8 billion yen as the acquisition of tangible and intangible assets totaled 24.8 billion yen while the Kao Group obtained proceeds from short-term loans. Payments of cash dividends were the major component of net cash used in financing activities, which totaled 9.0 billion yen. As a result, the balance of cash and cash equivalents at the end of the first quarter was 63.3 billion yen, a decrease of 4.1 billion yen from the balance at the end of the previous fiscal year.

Forecast of Consolidated Results for the Fiscal Year Ending March 31, 2007

Consolidated results for the first quarter were basically in line with the Kao Group's initial plan. The forecast of consolidated results for the full fiscal year (April 1, 2006 to March 31, 2007) remains unchanged from the initial forecast at the time of the announcement of business results for the year ended March 31, 2006.

Price trends in the Japanese consumer products market are unclear, and raw material prices are forecast to rise in Japan and overseas. However, the Kao Group will continue to aggressively promote high added value in its products and to make investments for growth.
