“The Park with Building” Kritsakon Chaiwarin (10 years old)

### Thoughts and wishes regarding the painting

Workers are wiping a glass building. The glass reflects a view of a park near the building. This shows that nature and technology can co-exist. If we, human, save our nature together, by conserving forest and stopping environmental degradation, we will be happy with our natural environment.

The 11th Kao International Environment Painting Contest for Children

Since its foundation 130 years ago, Kao has taken sides with consumers and made products with a sincere commitment to excellent value and customer satisfaction. We are engaged in initiatives to contribute to realization of enriched lifestyle culture and sustainability of society as our mission. Kao announced the Environmental Statement in 2009, which stipulates we promote "eco together," working with consumers, business partners and communities. In 2019, Kao also launched a new global ESG (Environmental, Social, and Governance) strategy, the Kirei Lifestyle Plan. We aim to contribute to society for the future through its implementation. This contest has been held since 2010, to encourage children around the world to think seriously about conservation of the environment around them, as well as about the earth's environment and future, and express their thoughts in paintings, and also encourage people around the world to take action in their daily life to preserve the environment. In the 10th contest, 16,552 entries were received from children all over the world. The winning works can be seen on Kao website. The 11th Contest is now open for entries until Friday, August 21, 2020. The award ceremony will be held in Tokyo on Friday, December 4, 2020. We hope that you will pass this information on and encourage children to participate in this international contest. We are also looking forward to many entries. 2020
