Kao Group achieves to create a cleaner, more beautiful, and healthier life for all people and the planet, and to make a safer, more harmonious world for all.

We also believe that for the sake of the children who will lead the future, we must listen to their thoughts on the future and create a world of harmony and potential for all life.

This contest has been held annually since 2010 so that the children around the world seriously think about the environment and future of the planet and express them as paintings, also the Kao Group conveys their works and thoughts to as many people as possible, thereby inspiring people to take actions toward sustainable lifestyles.

The children's paintings delivered from various regions across the globe, depict their precious thoughts on diverse lives and environments and how they value the environment with full of energy for the future.
