

To teachers and guardians

Now open: Entries invited The 7th Kao International Environment Painting Contest for Children

Since its foundation 120 years ago, Kao has taken sides with the consumer. Kao has always made products with a sincere commitment to excellent value and customer satisfaction. Taking account of changing conditions in the world, in its business practices, the Kao Group is determined to practically contribute both to greater richness in the culture of daily life and to social sustainability.

Since 2009, guided by the slogan "eco together," Kao has gone forward by dealing with environmental issues. Everyday, hundreds of millions of families use Kao products. Consequently, we apply the notion of "eco together," throughout the life cycle of our products. From the procurement of raw materials through to manufacturing, distribution, use, and disposal, we have been using and proposing more ecologically responsible ways of doing things. At the same time, Kao has sought and entered into broader and stronger engagement with environmental conservation activities in the wider world. As part of this outreach, the Kao Group has been running the Kao International Environment Painting Contest for Children since 2010. The contest encourages children to seriously consider eco behavior in everyday life, the global environment, and future of the Earth. At the same time, the viewpoints expressed in the paintings also help more people all around the world recognize the meaning of "eco together".

Worldwide, the sixth contest attracted 12,456 entries from 37 countries and regions. The winning works can be seen on the Kao website.*

The seventh contest is now open, and we will receive entries up to Monday, August 15, 2016. The winning works will be on display from December 8 (Thu) to 10 (Sat) at the Eco-Pro 2016 show held at Tokyo Big Sight, where the award ceremony will also take place. We hope that you will pass this information on and encourage children to participate in this international contest.
